

Omninet™
Global Network Management System

THE FLEXIBILITY TO MANAGE COMPLEX AND VARIED NETWORKS WITH EASE AND ACCURACY.

Omnivend is a visionary technology company with a world-class network management system that has the flexibility to deliver integrated product, media and data solutions even in the most complex and demanding environments.

FLEXIBLE | PROVEN | INTEGRATED | POWERFUL | VISIONARY

omnivend 

Omninet™

Omninet offers you a network management system, an industry accepted platform that has the capability to manage all elements of your network either over wireless or broadband networks.

Our proprietary patented technology is all encompassing and capable of managing a number of simultaneous management functions in rapidly changing environment. Omninnet is:

- Easy to tailor and configure
- Capable of handling multiple products
- Highly scalable, resilient & robust architecture
- Commercially proven technology in a number of complex environments
- Flexible pricing solutions
- Quick return on investment

The Omninnet difference:

Efficient

Omninet is unique in that it presents a single, unified, prioritised view of any network. This enables the Network Manager to be more efficient, managed by real-time accurate data and make informed decisions via the powerful reporting functionality.

Proven

The integrated capability is proven through our Omnimedia offering. Omninnet had the inherent capability to manage any type of network over both fixed and wireless networks. For example, Omninnet is commercially proven in Omniretail's network of next generation vending kiosks in high footfall retail locations, offering multiple products and innovative interactivity.

Scalable

Omninet can manage any range of devices in both medium and large scale networks-hence we can also scale our business models accordingly. Omninnet is highly scalable to execute rapidly on any system.

Flexible

The Omnivend business model is to work in partnership mode, offering tailored solutions as required. This approach, combined with the inherent flexibility of Omninnet has created an ease of customisation. Omninnet is uniquely capable of dealing with complex interactivity across any network, facilitating integrated promotional activity whilst fully fitting-in with your business processes.

Intelligent

Omninet has an in-built high level of intelligence to correlate all data across the network. This enables proper factual-based decisions to be made in a time-effective manner. Omninnet can be installed and commissioned in days rather than months on any network of devices in any business environment, anywhere in the world – with the support of Omnivend's capable team. The result is a faster route to market and quicker return on investment.
